Virtual VifiRun 2026 participation and registration rules

Unified rules for registration, completing the distance, cancellation and transfer of registration

Purpose of these rules

This document sets out in one place the conditions for participation, registration, payment, completing the distance, cancellation and transfer for Virtual VifiRun 2026. The applicant accepts these rules electronically during registration. The system records the time of acceptance and the version of the document accepted.

Virtual VifiRun 2026 continues the community and charitable initiative of VifiRun 2026, but it is not an in-person running race: there is no common start, designated route, organiser supervision, on-site medical support or ranking by finishing time.

Key conditions

- Participants may complete their chosen distance anywhere, according to their own schedule and at their own pace.
- The registration fee is 35 RON and includes a charitable contribution and one VifiRun 2026 medal.
- Completion must be evidenced no later than 20 December 2026.
- The image proving completion must be shown when collecting the medal in person.
- The registration fee is not refunded for voluntary cancellation.
- Registration and transfer become final only after the required email confirmations and administrative approval.

1. The Organiser and the purpose of the programme

1.1. Virtual VifiRun 2026 is organised by Marosvásárhely I. Vártemplomi Református Egyházközség, known in Romanian as Parohia Reformată I Cetate (the “Organiser”). Its registered address and the medal collection location are 3 Bernády György Square, Târgu Mureș, Mureș County, Romania.

1.2. The programme aims to encourage exercise, a healthy lifestyle and connection with the VifiRun community, and to support the charitable purpose of VifiRun 2026.

1.3. The Organiser may use the participation fees to support the advertised charitable purpose, provide medals and cover the programme’s organisational, payment and administrative costs.

2. Nature of Virtual VifiRun

2.1. Virtual VifiRun is an individual, virtual sports programme. The Organiser does not designate a route, location or starting time and does not direct participants’ runs.

2.2. Each participant chooses where, when, on which route and at what pace to complete the distance. The distance may be completed outdoors or on a treadmill, by running or by combining running and walking.

2.3. Finishing time does not matter in this programme. There is no mandatory time limit, official timing, placing or results list.

3. Conditions of participation

3.1. An individual may participate if they provide accurate information, accept these rules and the privacy notice, confirm their email address, pay the registration fee and have their registration approved by the Organiser.

3.2. A participant may register only in their own name. Unauthorised submission of another person’s details, or false or incomplete information, may result in rejection or deletion of the registration.

3.3. A minor may register only with the consent of a parent or legal guardian. The legal guardian must accept these rules, provide their own necessary contact details and ensure supervision appropriate to the minor's age and abilities. A participant under 14 may complete the distance only under the direct supervision of an adult.

4. Distances and participation limits

4.1. The available distances and their maximum numbers of participants are:

- 5 km – no more than 50 approved, active registrations.
- 10 km – no more than 40 approved, active registrations.
- 15 km – no more than 6 approved, active registrations.

4.2. The number of available places shown on the website changes dynamically. Starting but not completing registration does not itself reserve a place. A place is secured by successful payment and administrative approval.

4.3. A registration rejected by the Organiser, cancelled or deactivated does not count towards the active capacity for its distance; the released place may be made available again.

5. Registration process

- Choose a distance: the applicant selects 5, 10 or 15 km, then proceeds to the form.
- Provide details: the applicant gives their full name, phone number and email address and, for a minor, the required details of the legal guardian.
- Confirm by email: the system sends a single-use link valid for one hour from the time it is sent.
- Accept and pay: the applicant follows the link to continue registration, accepts the required documents and pays the fee by bank card.
- Administrative approval: after successful payment, the registration is reviewed and becomes active when approved by the Organiser.

5.1. If the confirmation link expires, a new link must be requested. An expired or previously used link cannot be reused.

5.2. The Organiser may reject a registration if the details are incomplete or false, payment has not been confirmed, the chosen distance is full, abuse is suspected or the applicant does not accept the mandatory conditions.

6. Registration fee and card payment

6.1. The registration fee is 35 RON. It includes a charitable contribution and one VifiRun 2026 medal.

6.2. The fee may be paid only by bank card through the BT Pay payment page available on the website. The Organiser does not receive or store full card details.

6.3. Based on information received from the payment service provider, the system indicates whether payment has been initiated, is being processed, has succeeded, has failed, has been cancelled or has been refunded. Successful payment alone does not replace administrative approval.

6.4. If a double charge is confirmed, a technical error occurs or the Organiser rejects a registration for its own reasons, the Organiser will take action in accordance with mandatory law and the payment service provider's procedures. These rules do not limit the participant's statutory rights.

7. Completing the distance

7.1. The chosen distance may be completed after registration has been approved and no later than the end of 20 December 2026.

7.2. The participant records the activity with a sports app, sports watch or another device that clearly displays the distance completed. The record must show at least the distance chosen during registration.

7.3. Completion should normally be evidenced by one recorded sports activity. If recording is interrupted by a device fault, the Organiser may assess related recordings individually.

7.4. Proof of completion may not be transferred, falsified or used on behalf of several participants. Where there is doubt, the Organiser may request further proportionate evidence.

8. Proof of completion and medal collection

8.1. After completing the distance, the participant may collect their VifiRun 2026 medal in person at 3 Bernády György Square, Târgu Mureș.

8.2. At collection, the participant must show a screenshot or photograph from the sports app, sports watch or other recording device. The distance completed must be clearly legible in the image.

8.3. Normally the Organiser only views the image and does not copy or retain it. The participant may hide unnecessary health data, exact location data and other personal information if the distance completed remains verifiable.

8.4. A medal is issued against the participant’s name and approved registration, cannot be exchanged for cash and may be collected only once for the same registration.

9. Health, safety and responsibility

9.1. Each participant chooses the location, time and conditions of their run. They must choose a lawful, safe route appropriate to the weather, traffic, terrain, their age, preparation and health.

9.2. By accepting these rules, the participant declares that they complete the chosen distance at their own risk and that their health and physical condition permit them to do so. If uncertain, they must seek medical advice before the activity.

9.3. The participant must comply with traffic, land-use and safety rules, use appropriate equipment and stop running in the event of danger, injury or illness, seeking help where necessary.

9.4. The Organiser does not designate a route or provide on-site supervision or medical personnel. It is not liable for consequences arising from the participant’s choice of location, route or time, or from their equipment, preparation or conduct. This does not limit any liability that cannot be excluded by law.

10. Cancellation of registration

10.1. A cancellation request may be started by providing the registration ID and registered email address. The system sends a single-use confirmation link to that address, valid for one hour.

10.2. Following email confirmation, the request is reviewed by an administrator. Cancellation becomes final when approved by the Organiser; the system gives notice by email according to the notification settings chosen.

10.3. The 35 RON fee is not refunded for voluntary cancellation, failure to complete the distance or missing the deadline. This does not affect cases where a refund is required by law.

10.4. Upon final cancellation, the participant loses the rights connected with the registration, proof of completion and collection of the medal. The Organiser may make the released place available again.

11. Transfer of registration

11.1. A registration may be transferred to another person before proof of completion is submitted and before the medal is collected, no later than the end of 20 December 2026.

11.2. The original participant starts the request by providing the registration ID and registered email address. The system sends a confirmation link valid for one hour to that address.

11.3. After the original participant confirms, the new participant provides the required details, confirms their own email address and accepts the current rules and privacy notice. The link sent to the new participant is also valid for one hour.

11.4. The transfer takes effect only after the necessary confirmations by both parties and administrative approval. Upon approval, the original participant’s rights end and the new participant assumes the rights and obligations connected with the registration.

11.5. A transfer does not include a refund of the fee. The distance may be changed only with the Organiser’s separate approval and if a place is available for the newly chosen distance.

12. Email notifications and administrative decisions

12.1. System emails required to confirm email addresses, secure payments and authenticate cancellation and transfer requests are necessary for the operation of the service.

12.2. The applicant may separately choose whether to receive email notifications about changes to the status of registration, cancellation and transfer. Turning off notifications does not affect mandatory security or legal communications.

12.3. The Organiser may approve registrations and requests or reject them for justified reasons. The system records the administrative decision, its time and, where necessary, its reason in an auditable manner.

13. Processing personal data

13.1. The Organiser processes data necessary for registration and related requests – particularly the name, phone number, email address, chosen distance, payment and status data, acceptances, and details of cancellation and transfer requests – to fulfil registration, manage payment, communicate, issue medals and meet legal obligations.

13.2. The detailed data-processing conditions are set out in the “Terms and privacy” document published on vartemplom.ro. The registration page must provide a direct link to that document.

13.3. The card payment provider may take part in processing payments, the email provider in delivering messages, and hosting and IT providers in operating the system. The Organiser transfers only the data needed for the relevant purpose.

13.4. Participants may request access, rectification, erasure, restriction or portability of their data, object to processing based on legitimate interests and complain to the Romanian data protection authority. Requests may be sent to info@vartemplom.ro or vifirun2026@vartemplom.ro.

14. Changes, technical failures and force majeure

14.1. The Organiser may change the practical arrangements for registration, proof of completion or medal collection for safety, legal, technical or unavoidable external reasons. Material changes will be announced on the website and, where necessary, by email.

14.2. In cases of force majeure, action by authorities, provider outages or other circumstances beyond the Organiser’s reasonable control, the Organiser may suspend, extend or change the programme. Mandatory legal provisions continue to apply.

14.3. The Organiser may retain the version of the rules previously accepted, the time of acceptance and related audit data for as long as necessary to establish legal claims.

15. Complaints, governing law and final provisions

15.1. Participants may send questions or complaints to vifirun2026@vartemplom.ro. The Organiser will review and answer complaints within a reasonable time.

15.2. Merchant information, online payment terms, the complaints procedure, privacy policy and refund terms are available on vartemplom.ro. If these rules conflict with mandatory law, the mandatory legal provision prevails.

15.3. These rules are governed by Romanian law. The parties will first try to resolve disputes by agreement; failing that, the competent authority or court under the law will decide.

15.4. Registration constitutes full, express acceptance of these rules. If any provision is invalid or unenforceable, the remaining provisions remain valid.

Document details

Organiser: Marosvásárhely I. Vártemplomi Református Egyházközség / Parohia Reformată I Cetate

Completion deadline: end of 20 December 2026

Distances and capacity: 5 km – 50 places · 10 km – 40 places · 15 km – 6 places
